

Ralph Summers Given Christmas Seal Honor

Ralph Summers, Albert Lea school teacher, and chairman of the Freeborn County Respiratory Health council, was honored for his work as a Christmas Seal volunteer at the state meeting of the Minnesota Respiratory Health Association in St. Paul, Friday.

Summers was one of seven volunteers throughout the state who received award pins for service to the organization.

As director of athletics in Albert Lea schools for 20 years, and supervisor of elementary physical education for 12 years, Summers has a wealth of experience in the field of physical education. Currently, he is director of health and physical education at Brookside Junior High School and director of the senior high intramural program.

Summers has participated at several health workshops sponsored by the Respiratory Health association, and has supported its tuberculin testing and chest X-ray surveys.
